## **SMARTER, FASTER AND RELIABLE IT SOLUTIONS FOR REAL ESTATE SERVICE WITH GLOBAL STANDARDS**

Real Estate marketing in India is counted as, major player in the world. As per the research of some of the leading companies, Real Estate occupies the 9th position in the world market. The flourishing scenario of the Real Estate Market is actually backed by various factors that continue to aid its growth.

With the advent of internet, selling real estate has changed dramatically. It is now very important for a Realtor to have a web presence to target a wider range of audience and to generate prospects and business.

Our client, excelling in real estate approached Shalom InfoTech to provide them a solution in increasing their online web presence.

Most of the real estate agents are not aware of the potential of website as it has to. This is due to lack of awareness of the importance of a web presence. Our client has understood the importance of web presence and sought our help. We provided them solutions on how to effectively market their business through web.
